PROFESSIONAL PROFILE

Third-year Software Engineering student focused on building scalable, high-performance web applications with integrated AI solutions. Experienced in end-to-end development from design to deployment. Seeking a final year internship to apply and expand skills.

EDUCATION

Higher Institute of Computer Science and Mathematics of Monastir (ISIMM)

Monastir, Tunisia

Engineering Cycle – Software Engineering. Currently in 3rd year

2023 – Present

Integrated Preparatory Cycle – Mathematics and Computer Science

2021 – 2023

INTERNSHIPS

Software Engineering Intern — Proxym-IT Group

04 Jun – 18 Jul 2025

Sousse, Tunisia

- Designed and developed an internal platform standardizing key vehicle insurance processes.
- Provided a modular, reusable technical base to accelerate future insurance projects.

AI & Software Engineering Intern — Lab_Tim Laboratory

Jul – Sep 2024

Faculty of Medicine, Monastir

- Designed and trained U-Net models enhanced with Inception modules for brain lesion segmentation.
- Built a web platform for medical image visualization, preprocessing, and prediction.

Data Engineering Intern — TaDa Startup

Jun 2024

Monastir, Tunisia

- Extracted and structured a database of 70,000+ entries from PDFs, APIs, and web sources.
- Automated data processing workflows, improving efficiency by 40%.

Cybersecurity Intern — L'EPI D'OR

Jul 2023

Sousse, Tunisia

- Gained proficiency in Linux system configuration, monitoring, and optimization.
- Conducted comprehensive website vulnerability assessments and security scans.

PROJECTS

CI/CD & Container Orchestration Pipeline — Jenkins, Kubernetes

- Built an automated CI/CD pipeline using Jenkins and deployed containerized applications on Kubernetes clusters.

Scalable Cloud Infrastructure on AWS — VPC, EKS, AWS

- Designed and deployed a secure VPC and EKS cluster for scalable cloud-native applications.

TECHNICAL SKILLS

Programming: Python, Java, C++, C

Development: React, Node.js, Express, Flask

Databases: PostgreSQL, MySQL, MongoDB

Cloud: AWS services

DevOps & CI/CD: Git, Jenkins, Docker, Kubernetes, Terraform

Data Engineering: Apache Spark, Hadoop

Machine Learning & Deep Learning: TensorFlow, Keras, CNNs, U-Net architectures, RNNs, LSTM

CERTIFICATIONS

AWS Academy Graduate – Cloud Foundations [🔗](#)

Fundamentals of Deep Learning [🔗](#)

AWS Academy Graduate – Cloud Operations [🔗](#)

Building Transformer-Based NLP Applications [🔗](#)

EXTRACURRICULAR ACTIVITIES

IEEE Computer Society Chapter – **General Secretary** | AIESEC, RUSPINA – International Relations Department

LANGUAGES

English – Advanced (EF SET certified) | French – Fluent (TCF Certified) | Arabic – Native
